

Short Tutorial on the Pyksee's Mushroom Tea Hat

Start out with a nylon doll hat that normally fits a 12 inch circumference head. I always thought that if one wears an overlarge hat on one's head, one looks like a mushroom. *lol.

I assembled the supplies I needed to change the color of my hat as well as the lace I wanted to use with it. To change the color I created my own alcohol spray by using my silk painting dyes.

Recipe for my dyes is:

- ¼ cup of 90% rubbing alcohol
- 1 teaspoon (or less depending on how dark you want your color) of non-diluted silk paint dye
- Place in a small spray bottle

Add lace and feathers and
wha...la!

I have a Pyksee's tea hat!

Enjoy!
